Hyderabad, Telangana, India - 500100

PROFESSIONAL SUMMARY

Highly motivated B.Tech student specializing in AI & ML, seeking internship opportunities to apply skills in Python, Machine Learning, and problem-solving while gaining real-world industry experience.

EDUCATION

CMR Institute of Technology, Hyderabad

2023 - 2027

B.Tech. - Computer Science and Machine Learning | CGPA: 6.74 / 10

12th | Percentage: 78.60 / 100

2023

10th | Percentage: 100 / 100

2021

PROJECTS

Object Based Forgery Detection

Team Size: 2

Key Skills: CNN HTML CSS Deep Learning Python

Project Link: <https://github.com/sathhwikk/Deep-Convolutional-Neural-Network-For-Robust-Detection-Of-Object-Based-Forgeries>

Developed a DCNN-based system to detect object-based forgeries in videos.

Implemented video preprocessing, frame extraction, and normalisation.

Improved detection robustness by analysing spatial and temporal features across video frames.

HireEase(Ongoing)

Key Skills: Figma Flask Python SQL HTML CSS Javascript

Developing a full-stack service-booking platform using Flask, Python, SQL, HTML, CSS, JavaScript, and Figma with features including user authentication, service booking, and scalable support for multiple service categories.

ASSESSMENTS / CERTIFICATIONS

EY & Microsoft - AI Skills Passport

Provider: EY&Microsoft

IBM SkillsBuild - AI + Sustainability Virtual Internship

Provider: IBM SkillsBuild

Microsoft Learn - Get Started with Machine Learning in Azure

Provider: Microsoft

Microsoft Learn - Get Started with Generative AI in Azure

Provider: Microsoft

Microsoft Learn - Get Started with Natural Language Processing in Azure

Provider: Microsoft
